Dennis Stormer for YOUTH TOPIA (CH/DE 2021)

JURY STATEMENT

YOUTH TOPIA inspired us for many different reasons. We were able to deeply empathize with the created characters and identify with the context and the storyline. The camera work, particularly the variation of formats, as well as the selected color filters and the self-produced content of the cast, deeply impressed us. The topics that were touched upon and the realities of the film were captured on screen in an amazing way, especially for our generation. As we are still caught in the limbo between being young and grown-up, this story deeply touched us.
